

VALARD ENVIRONMENTAL TRAINING PROGRAM

Valard Environmental Division is looking for 15 people to train on project specific Environmental monitoring aspects of the East West Tie Project

The intent is to hire up to 6 people initially and the rest of the trainees to be hired should the scope of project work increase

The training will run from August 19th-22nd and take place at the Supercom head office located at 632 City Road located on Fort William First Nation. There will also be some Environmental field work training on existing Power Lines.

Should PPE be required for the field work training, Valard will provide hard hats, vests, glasses, and gloves. The trainee is to provide their own work boots

Successful training applicants living outside of Thunder Bay will be provided Hotel accommodations and will also receive \$200/day to cover Breakfast/Dinner and travel costs.

Valard will provide Lunch each day during training

Those selected for employment will be paid \$23.22/hr. plus overtime. Employees will be accommodated in the Valard camps.
