

# Martel/Magpie Draft Forest Management Plan

## Forestry Presentation

December 10, 2020 @ 6:00 – 8:00PM

## Via Zoom Meeting

The Province of Ontario has initiated a process to merge two forest management units (the Martel and Magpie Forest Management Units). As a part of this process, a Forest Management Plan for the combined area is being developed by The Ministry of Natural Resources and Forestry, and Rayonier Advanced Materials (plan author) with input from local communities and First Nation's including Michipicoten.

To date, Michipicoten has expressed concern around issues of aerial spray of herbicides, insecticides and fungicides, and designating areas for enhanced Moose habitat.

Representatives from MNRF will be presenting highlights from the Draft Martel/Magpie Forest Management Plan to the community on December 10<sup>th</sup>, 2020 between 6:00-8:00PM via Zoom. Michipicoten First Nation is asking that Citizens who are 'Forest Users' and those concerned with environmental and community impacts of forestry attend this presentation and provide feedback to MNRF representatives.
