

Final Housing Design Workshop

Wednesday May 10 • In-Person & Online

Michipicoten First Nation is taking major steps towards building a new residential subdivision at the Gros Cap reserve. The Community Lead Housing Design Process, Niwiigwaaminaanin, produced concept designs for 3 distinct housing typologies which will make up the new 15 unit development.

Michipicoten is seeking a final round of feedback from Citizens to improve the housing design concepts. Project Architects from Keewatin-Aski Ltd and Lateral Office will be at Michipicoten First Nation to host a catered in-person and online event on Wednesday May 10th at the MFN Band Hall.

Michipicoten is counting on Citizens to provide feedback on designs.
