Subject: **PRECAUTIONARY BOIL WATER ADVISORY**

This is a notice to the community members of Michipicoten that regularly scheduled work at the Water Treatment Plant has caused a Precautionary Boil Water Advisory effective July 23rd, 2025 at 1:00am.

Such advisories are commonly issued when any work or maintenance to the system takes place. During this time, it is advised that you boil your water before consuming in an effort to protect your health.

The water will be tested by the water plant operator, and samples will also be sent to an accredited laboratory, as required. Once the sample results confirm that the water is safe to drink, the advisory will be lifted.

We thank all residents for their patience and understanding during this time. If you have any questions or concerns, please contact Chris Buckell at 705-856-1993 ext. 217 or by email:
